Recognition not repetition

Recognition of prior learning

Before studying with us, check whether any of your previous qualifications from other professional bodies and institutes, including universities, count towards a CII qualification. It could save repeated learning and reduce your qualification costs.

To find out whether you're eligible, visit cii.co.uk/prior-learning

Relevant degrees

If you hold a relevant degree in accounting, business, economics, finance, maths, management, insurance, risk management, statistics, actuarial disciplines, investment analysis or financial services, you could receive credits to use towards CII qualifications.

Professional qualifications

Candidates who've studied with other professional bodies often claim CII credits through our recognition of prior learning scheme. For example, a claims practitioner who studied with the Chartered Institute of Loss Adjusters (CILA) could claim prior learning credits for:

- Insurance claims handling unit, forming part of the Level 3 Certificate in Insurance, providing 15 CII credits.
- Advanced Diploma, providing 60 Advanced Diploma credits within the CII insurance qualifications framework.

There are many qualifications which are recognised in this way. Visit the website for further details.

How to apply for CII credits

Once you've checked your qualification is recognised as prior learning, you will need to submit an application online at cii.co.uk/prior-learning, with your scanned supporting evidence. Our customer service team will review and confirm your eligibility by email.

If your application is successful, you'll need to pay a fee to claim the credits[^] before prior learning is awarded.

- CII / Personal Finance Society members – £4 per CII credit
- Non-members – £7 per CII credit

We'll let you know the fee amount, based on the number of CII credits and your membership status.

[^]Remark:

- Once your recognition of prior learning is successful confirmed, you must claim it within thirty days of your confirmation letter. If it is not claimed within the period, it will be invalidated and you may need to make a new application.

Study and assessment key

Assessment methods vary depending on the unit's level and subject matter. Each unit has been colour coded in the framework to the left, to identify the assessment method from the options below.

Multiple choice question (MCQ) exam

Study is based on a specified enrolment period, from 01 January - 31 December for UK exams, and 01 May - 30 April for non-UK exams. MCQ exams are available weekly at UK and selected international online exam centres, or twice-yearly in April and October at international paper-based exam centres.

Written exam

Study is based on a 12 month enrolment period from the date of purchase. Written exams are held twice-yearly in April and October at UK and international exam centres.

Mixed assessment

Study is based on an 18 month enrolment period from the date of purchase. Candidates must pass a coursework assignment within the first 6 months and a MCQ exam within 18 months.

Coursework assignments

Study is based on a 12 month enrolment period from the date of purchase. Candidates must pass three written assignments, each typically 2,000-3,000 words.

Dissertation

Study is based on an 18 month enrolment period from the date of purchase. Candidates must submit a dissertation, typically 10,000-11,000 words, on an agreed subject.

We recognise that with such a flexible framework, there are many options available. To help keep things simple, we've outlined some typical underwriting, broking and claims case studies. These represent the typical combination of units that are taken at this level and role. If you're new to the CII framework, you might find it useful to start with one of these and adapt if necessary to your specific needs.

Study and assessment key

Assessment methods vary depending on the unit's level and subject matter. Each unit has been colour coded in the framework to the left, to identify the assessment method from the options below.

Multiple choice question (MCQ) exam

Study is based on a specified enrolment period, from 01 September - 31 August. MCQ exams are available weekly at UK and selected international online exam centres, or twice-yearly at international paper-based exam centres (April and October).

Written exam

Study is based on a 12 month enrolment period from the date of purchase. Written exams are held twice-yearly in April and October at UK and non-UK exam centres. The exception is unit R06 which is tested four times yearly in January, April, July and October.

Coursework assignments

Study is based on a 12 month enrolment period from the date of purchase. Candidates must pass three written assignments, each typically 2,000-3,000 words.

We recognise that with such a flexible framework there are many options available. To help keep things simple, we've outlined financial planning, investments and securities, life and pensions, and mortgages and equity release case studies. These represent the typical combination of units that are taken at this level and role. If you're new to the CII framework, you might find it useful to start with one of these and adapt if necessary to your specific needs.
